SEX HORMONES

It has recently been discovered by biologists that when a particular organ in the Human body ceases to function correctly, its normality can be restored by administering to the patient the Hormones of the similar organs of animal origin.

The therapeutic utilisation of the Sex Hormones of fresh Glands removed from healthy animals, such as the Bullock, Ram, Stallion, Ape, etc., is a step forward in medical science and the result of prolonged and painstaking investigation, the logical outcome of the work of such savants as Voronoff, Metchnikoff, Steinach, etc.

Fresh research has shown the profound influence of these gland hormones on sex, the emotions and passions.

FEMININE INDIFFERENCE

EMELGEFEM

Brand

TABLETTÆ

is a similar formula incorporating the particular female SEX-HORMONES for stimulation of the ovarian glands, the effect of which is astounding and provides an absolutely safe, harmless and permanently beneficial gynæcological remedy for FEMININE AVERSION, Repression and Repugnance to the physical side of sex; no matter how weak and delicate the patient may be. Emelgefem acts AT ONCE as a powerful uterine stimulant for that wide-spread cause of conjugal misery, sex quiescence or anæsthesia, restoring nervous stimuli and giving **RE-AWAKENING OF THE SEX-INTEREST AND ABILITY TO REACH ORGASM.**

PRICES: **20/-** per box of 42 Tablettæ (3 boxes for **50/-**).

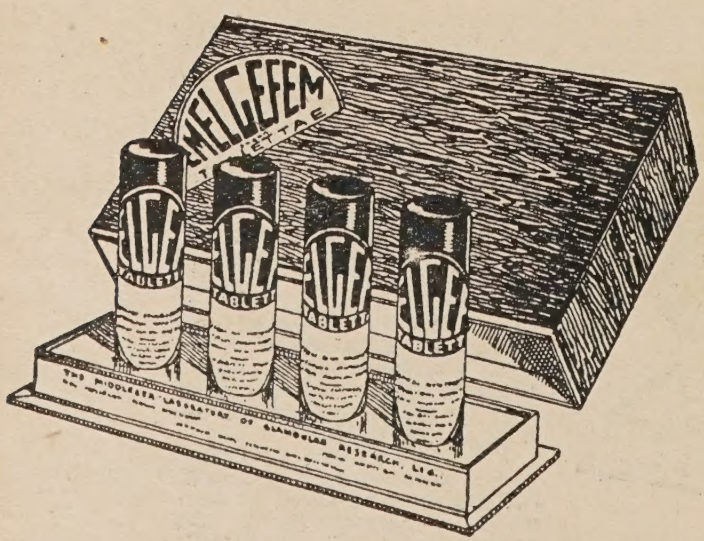
SPECIAL STRONG FORM (High Potency)—for extreme cases of passivity, sex quiescence and total inability to reach culmination.
30/- per box of 42 Tablettæ (3 boxes for **80/-**).

Where **IMMEDIATE** rectification of apathy or **TOTAL INABILITY** to reach orgasm is required the stronger form will have the desired results in all normal cases **IN A FEW MINUTES.**

A FEW EXTRACTS FROM RECENT REPORTS.

"I was very pleased with your preparation; it did all you say."—Mrs. H. S., SLOUGH.

"They have done the trick; I feel very well in myself."—Mrs. C. J., LEICESTER.



"I cannot say how grateful I am. The tablets are wonderful, and do all you say. I shall recommend them whenever I can."—Mrs. W. S., HERTS.

"I really do think this is magical, a great improvement. My husband also is much better since I gave him his treatment."—Mrs. H. M., YORKSHIRE.

MASCULINE LOSS OF CONTROL

PREJACRIN Brand **TABLETTÆ**

For the disastrous condition Ejaculatio Præcox from which such a large number of men suffer, PREJACRIN provides a complete cure. Taken at night for over-excitability of the function and uncontrollable hastiness of the masculine system, it is absolutely necessary to those in middle and later life with this personal weakness. PREJACRIN at once restores perfect control and conquers this humiliating male defect, and if taken daily for a period gives permanent results.

PRICES: 20/- per box of 42 Tablettæ (3 boxes for **50/-**).
SPECIAL STRONG FORM (High Potency)—for severe or utter inability to control.
30/- per box of 42 Tablettæ (3 boxes for **80/-**).
(All packed in Pocket Containers).

Where IMMEDIATE rectification of this personal weakness is desired the stronger form will give control in an hour or two.

EMELGEMAL TABLETTÆ may be taken in conjunction with Prejacrin Tablettæ at the same time if Impotencia Erectiva is also present.

A FEW EXTRACTS FROM RECENT REPORTS

"I am pleased to say tablets were very successful, thanking you very much."
—P. B., ANDOVER.

"I am pleased to say I have received great benefit from medicine received. I am ordering further supply to make sure of a complete cure. Thanking you, I remain."
—Y. F., WORCS.

"I am so really delighted with the marvellous improvement in my husband."—F. H., LIVERPOOL.

BARRENNESS (Both Sexes)

MIDDLESEX Brand **STERILITY TABLETTÆ**

The influence of the ductless glands upon reproduction, hypo-ovarian activity, and hypogonadism (sexual under-development) is now fully recognised. The major cause of sterility is disturbance of the thyroid, ovarian or testicular glands.

It has been found that defects which rob many women of the joy of motherhood may be remedied by the use of those hormones which affect the motor centre of the sexual function in the female and seminal vesicles, prostate, and urethral glands in the male, with full augmentation of Spermatocytes.

The function of the follicular hormone in the female is to regulate the sex cycle and to maintain the female accessory and secondary sexual organs in the fully developed condition characteristic of the organism after puberty.

These compounds of stimulating hormones are confirmed in clinical practice as a successful treatment for barrenness and those childless couples who intensely desire parenthood. Those who have been childless for years can now become parents by correction of retarded sexual development, ripening of the follicles, or ovarian or gonadel deficiency. **Where there is doubt as to which of the two is the cause of unfruitfulness, both** should take the respective tablets (Male and Female) simultaneously.

Manganese and Vitamin E are added, for they are essential to the optimum functioning of reproductive processes, absence of sufficiency leading to atrophy of the sexual organs, degeneration of seminiferous tubules, and alterations in maternal instinct in the female. Milk secretion is increased, weakness of the genitals, or diminished activity of ovarian function, rectified.

PRICES—Male or Female: 20/- per box of 105 Tablettæ (3 boxes for **50/-**).

SPECIAL STRONG FORM (High Potency) for long-standing cases of sterility:— **30/-** per box of 105 Tablettæ (3 boxes for **80/-**).

ONE OF MANY RECENT REPORTS.

"You will be pleased to hear that the treatment I have been taking has been proved successful. My husband and I shall always recommend you and both of us are very thankful." V. S., SHEFFIELD.
